

DIN Rail Adapter Kit

ICT24048-7BC2 IntelliCharge 48 volt, 7.5 Amp DC power supply and charger shown on DIN rail

The ICT-DIN rail adapter kit allows ICT IntelliCharge Series battery chargers and Site Inverter 300 inverters to be mounted on standard DIN rails to facilitate mounting in power enclosures, equipment racks, and other installations requiring DIN rail mounting of components. Each kit comes with two clips and fasteners for attaching to pre-installed threaded positions on the bottom of select ICT power products.

- ▶ Allows convenient, fast DIN rail installation and removal of product
- ▶ RoHS compliant
- ▶ Each kit contains two clips and fasteners

Model No.	Description
ICT-DIN	ICT DIN rail adapter clips for converting Site Inverter 300 sine wave inverters and IntelliCharge Series power supply and battery chargers to DIN rail mounting
